WBIF	Grant	WB-IG08-BIH-ENE-02	€ 43,665,747
Total			€ 200,292,147
Total Grants			€ 44,045,747
Total Loans			€ 150,000,000

Project Description

More than half of Bosnia and Herzegovina's electricity generation capacity is made up of hydropower, while the remainder comes from lignite power plants (47.6% of the total installed generation capacity) and wind farms.

This investment project will develop a 132 MW wind farm in the West Herzegovina Canton, contributing to the country's renewable energy goals and reducing reliance on coal. The wind farm is expected to produce 436 GWh/year of electricity, equivalent to the energy demand of 72,700 households, and displace 446,900 tonnes of CO2 annually.

The EU has provided technical assistance for project preparation and co-funds the investments under Flagship 4 - Renewable energy - of the [Economic and Investment Plan for the Western Balkans](#) through the WBIF.

- **Countries:** Bosnia and Herzegovina
- **Code:** PRJ-BIH-ENE-001
- **Sector:** Energy
- **Lead IFI:** EIB
- **Status:** Preparation
- **Beneficiary:** Ministry of Energy, Mining and Industry of the Federation of Bosnia and Herzegovina; JP Elektroprivreda HZ HB d.d. Mostar
