

Regional Sanitary Landfill for Zivinice, Banovici and Kladanj

Project Financing

WBIF	Grant	WB18-BIH-ENV-02	€ 374,400
WB	Loan		€ 150,000
EBRD	Loan		€ 5,000,000
Other Donors	External Grant		€ 192,944
Sida	External Grant		€ 2,500,000
Total			€ 8,217,344
Total Grants			€ 374,400
Total Loans			€ 5,150,000

Project Description

With large parts of the EU waste acquis yet to be transposed and only six landfills meeting EU standards, the construction of regional sanitary landfills has been identified as a prerequisite of a systematic solution for solid waste management in the country.

The WBIF finances the supervision services for the construction of a regional sanitary landfill of 1,269,340 m³ for three municipalities in Tuzla Canton (Zivinice, Banovici, and Kladanj), a safer system of waste management with integrated recycling. The investment is expected to help bring current operations closer to the EU standards, and reduce the environmental risks posed by uncontrolled emissions and effluents from existing open dump sites.

Construction works are planned to start in 2018 and be completed in 2021.
